

Birkrigg – Spring 1

Happy 2022! Welcome back to school and a new term.

Our topic this half term is **Water**.

Literacy

We will continue to have our Phonics sessions every morning where the children are learning the letter sounds, including how two letters make one sound; how to blend them to read words and how to write their letters correctly. We will read some story books and some information books this half term. Our story books will include 'One Snowy Night' by Nick Butterworth and The Lighthouse Keeper's stories. We will look at information books relating to the sea and the animals that live in the sea. We will practise our writing with activities linked to these texts including writing animal facts and learning how to write instructions.

Maths

We are extending our number work up to number 8. We are going to be doing lots of work on number bonds, pairs of numbers that can be added together to make another number. We do of course take every opportunity to count larger groups of objects as well – how many children in our class today, how many leaves on our beanstalks, etc. We will also investigate mass and capacity.

Understanding the World

To begin our half term, we are going to think about Winter and the changes we might see in our local environment during this season. We will look at changing states of matter and investigate ice melting. We will carry out some research on animals that live in the sea and have a go at drawing them and adding labels to our drawings.

We will talk about how we use water in our everyday lives, including thinking about washing in the past. We will use 'Mrs Lather's Laundry' as a starting point to talk about differences between then and now. We will think about where we can find water in both our local environment and in our world. Through our Lighthouse Keeper's stories we are going to think about some of the dangers of water and how lighthouses have changed over the years.

RE

Our topic this half term is 'What are special stories for Christians?' To start the topic, we will encourage the children to talk about what stories are special to them and why they are important. Hopefully we can share some of these stories together as well. Children will then hear different Bible stories each week and we will explore them through artwork, role play and songs. At the end of the half term, we will make a class pictogram of the children's favourite Bible story.

PSE

This half term's unit is called 'Going for Goals'. Through circle time activities and games, we will talk about things we like to do and things that we are good at. We will also think about setting goals for ourselves. As usual we will be making some things to eat as we work cooperatively, take turns, and follow instructions. Towards the end of the half term, we will think about what makes a healthy packed lunch.

Music

This half term the unit is called 'Everyone'. Miss Hayter will continue to teach Music on a Tuesday afternoon.

Expressive Arts and Design

Linked to our water topic, we are going to use watery washes in our artwork, experimenting with painting over wax crayons and marbling with oil, food colouring and water. There will be chances to make a water collage and to paint some under the sea animals. We hope to make our own lighthouses using junk modelling materials.

Computing

As well as new activities on Mini-Mash linked to our new topic of 'water', we hope to provide opportunities for children to use the Bee-Bots, small robotic devices that can be used to teach children the basics of programming.

PE

We will continue to have two hall times, Monday, and Thursday afternoons. This half term we will carry on with a gymnastics unit, often using the large apparatus, and a games unit involving bean bags and balls, that we started in the Autumn term. Mr Leech will hopefully be leading the games unit. We can also use the hall for circle time and parachute games.

As last half term, weather permitting, we also hope to use the bikes and scooters on the school playground and, when the school field dries up a little, we will resume our field time on a Friday afternoon.

Please can you ensure that your child has a waterproof coat in school at all times. A pair of wellies would also be very useful for wet weather.

We will continue to change reading books twice a week. The children will bring their new books home on a Tuesday and a Friday. Please comment in your child's reading journal if you have heard your child read. We also listen to the children read in the classroom.

If you have any further questions, please feel free to come and speak to me.

Miss Turner
